**RESPONSE TO PAPERS FILED MARCH 31, 2009**

Claims 1-2 are allowable. The restriction requirement between the compounds and the methods of use, as set forth in the Office action mailed on 1/9/2009, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 15-16, directed to methods of using the compounds of claims 1-2 are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Claims 4, 6-7, 9-10, 18, 20-21, 23, and 26 have been amended per applicant's direction in the response filed 3/31/09.

Claims 3, 5, 8, and 11-13 have been canceled per applicant's direction in the response filed 3/31/09.

Claims 31-36 have been added per applicant's direction in the response filed 3/31/09.

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the prior art is not seen to teach or fairly suggest the isolated compounds as claimed, nor the compounds purified to at least 0.001 weight % dry solids or compositions comprising the same. The rejections over Nakahara and Uehara have been overcome as the references fail to disclose methods of adding an isolated flavone C-glycoside to a composition or cosmetic, and fail to disclose any amounts or extraction methods which would render obvious or anticipate the compositions claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to TRAVISS C. MCINTOSH III whose telephone number is (571)272-0657. The examiner can normally be reached on M-F 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Shaojia A. Jiang can be reached on 571-272-0627. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
